Q. 1. Define the term 'Leadership' and discuss its functions.

What you mean by Leadership? Discuss the functions of Leadership.

Ans. Leadership is the process of influencing the behavior of others to achieve common goals. It involves the use of power and authority to guide and direct the actions of a group of people towards the attainment of a common purpose. Leadership is a dynamic process that changes over time and across different situations. It is not a static position or a title, but a role that is performed by individuals in various contexts. Leadership is essential for the success of any organization, as it provides the vision, direction, and motivation needed to achieve the organization's objectives. The functions of leadership include setting a vision, defining the organization's strategy, and motivating employees to work towards the organization's goals. Leadership also involves communication, decision-making, and conflict resolution. In summary, leadership is a complex and multifaceted concept that is central to the success of any organization.

ANSWER OF QUESTION "Define Leadership"
Leadership is the process of influencing the behavior of others to achieve common goals. It involves the use of power and authority to guide and direct the actions of a group of people towards the attainment of a common purpose. Leadership is a dynamic process that changes over time and across different situations. It is not a static position or a title, but a role that is performed by individuals in various contexts. Leadership is essential for the success of any organization, as it provides the vision, direction, and motivation needed to achieve the organization's objectives. The functions of leadership include setting a vision, defining the organization's strategy, and motivating employees to work towards the organization's goals. Leadership also involves communication, decision-making, and conflict resolution. In summary, leadership is a complex and multifaceted concept that is central to the success of any organization.

गणित में एक प्रकार का अक्षर है जो हमें numbers को जोड़ने के लिए है। इसका नाम addition है। यह हमें दो या दो से अधिक numbers को जोड़ने में मदद करता है।

उदाहरण के लिए, 2 + 3 = 5। यहाँ 2 और 3 जोड़े गए हैं और परिणाम 5 है। यह हमें numbers को जोड़ने में मदद करता है।

यह एक ही प्रकार का है जो हमें numbers को जोड़ने में मदद करता है। यह हमें numbers को जोड़ने में मदद करता है।

हम इन सभी (Functions of Reader) को जोड़ सकते हैं, जो हमें numbers को जोड़ने में मदद करता है।

(ii) यह एक ही प्रकार का है जो हमें numbers को जोड़ने में मदद करता है। यह हमें numbers को जोड़ने में मदद करता है।

1. Introduction of the subject -
 The subject of the course is the study of the history of the Indian people and their struggle for freedom.

The course is designed to provide a comprehensive understanding of the historical process of the Indian people's struggle for freedom. It covers the period from the beginning of British rule in India to the attainment of independence in 1947.
